1 Typesetting instructions - Summary

LIPICs is a series of open access high-quality conference proceedings across all fields in informatics established in cooperation with Schloss Dagstuhl. In order to do justice to the high scientific quality of the conferences that publish their proceedings in the LIPICs series, which is ensured by the thorough review process of the respective events, we believe that LIPICs proceedings must have an attractive and consistent layout matching the standard of the series. Moreover, the quality of the metadata, the typesetting and the layout must also meet the requirements of other external parties such as indexing service, DOI registry, funding agencies, among others.

The present document is an unofficial Typst reproduction of the LaTeX LIPICs sample paper. It uses the `para-lipics` template, which largely follows the official `lipics-v2021.cls` LaTeX style.

Please comply with the following instructions when preparing your article for a LIPICs proceedings volume.

Minimum Requirements

- Use pdf_latex and an up-to-date LATEX system.
- Use further LATEX packages and custom made macros carefully and only if required.
- Use the provided sectioning macros: section, subsection, subsubsection, paragraph, subparagraph, and subparagraph (for more details, see Section 2.4).
- Provide suitable graphics of at least 300dpi (preferably in PDF format).
- Use BibTEX and keep the standard style (plainurl) for the bibliography.
- Please try to keep the warnings log as small as possible. Avoid overfull hboxes and any

¹ Optional footnote, e.g. to mark corresponding author

2 Dummy title

- kind of warnings/errors with the referenced BibTEX entries.
- Use a spellchecker to correct typos.

Mandatory metadata macros

Lorem ipsum dolor sit amet, consectetur adipiscing elit, sed do eiusmod tempor incididunt ut labore et dolore magnam aliquam quaerat voluptatem. Ut enim aequaleam animo, cum corpore dolemus, fieri tamen permagna accessio potest, si aliquod aeternum et infinitum impendere malum nobis opinemur. Quod idem licet transferre in voluptatem, ut postea variari voluptas distinguique possit, augeri amplificarique non possit. At etiam Athenis, ut e patre audiebam facete et urbane Stoicos irridente, statua est in quo a nobis philosophia defensa et collaudata est, cum id, quod maxime placeat, facere possimus, omnis voluptas assumenda est, omnis dolor repellendus. Temporibus autem quibusdam et aut officiis debitis aut rerum necessitatibus saepe eveniet, ut et voluptates repudiandae sint et molestiae non recusandae. Itaque earum rerum defuturum, quas natura non depravata desiderat. Et quem ad me accedis, saluto: 'chaere,' inquam, 'Tite!' lictores, turma omnis chorusque: 'chaere, Tite!' hinc hostis mi Albucius, hinc inimicus. Sed iure Mucius. Ego autem mirari satis non queo unde hoc sit tam insolens domesticarum rerum fastidium. Non est omnino hic docendi locus; sed ita prorsus existimo, neque eum Torquatum, qui hoc primus cognomen invenerit, aut torquem illum hosti detraxisse, ut aliquam ex eo est consecutus? – Laudem et caritatem, quae sunt vitae.

2 Syntax

2.1 Figures, tables, and listings

■ **Figure 1** This is my figure

■ **Table 1** Table

A	2	3
B	3	4
C	3	4
D	3	4
E	3	4

■ **Listing 1** My listing

```
print("Hello")
a = [1, 2, 3, 4]
def foo(bar):
    print(bar)
```

2.2 Lists and Enumerations
